We call the attention of our lady readers to the notice of Bien, of Sac-ramento, who advertises in this issue Ladies' Linen suits. They are in three pieces and cost from four to five dollars. They are just the thing.

M. L. Peralta who returned from a trip in the northwestern portion of the county, informs us that the mill at Seymour will start up about the 10th. A frame building 20x40 has lately been completed and is now used by him as a store. The town is quite lively and will soon be quite a city.

Mr. Williams Manager of Buck-alew & Ochoa's store at Maricopa has visited this city this week. That firm is closing up their business at Maricopa preparatory to moving to Florence where they will occupy a large handsome store owned by J. C. Loss.

W. W. Webb is in from Tonto Basin and says: The Mazatzel mill temporarily shut down owing to the scarcity of water, Charlie Clark has moved his store within two miles of old camp Reno, and is doing a good business. He is very popular and well liked by the residents roundabout. New families are moving into the Basin and settling. Two marriages will be consummated on the Fourth. The settlers will meet and celebrate the day in a proper manner. A com-pany of scouts left Fort Reno Thursday morning for Green Valley, at this point it is stated that a camp will be established. Mr. Webb will return to his home in a few days.

Ginger ale at Loring's.

Tower Thomasson has returned from a prospecting trip to the Meyers district. This district is 60 miles south of Gila Bend and was first brought to public notice a few months since by the bonding of 14 mines - 9 silver and 5 gold by George Tyag editor of the *Yuma Sentinel*. The bond is for \$175,000 and expires in about three months. The Gunsight is the name of the claim in which most the work has been done. It has two shafts and two tunnels the former being about 17 feet deep; the latter have just been started, and will tap the shaft at a distance of 50 feet. The review is about 15 feet wide and has yielded at present about 50 tons of good ore. This district is destined in a short time to be quite a large place, a scarcity of water at present is a draw-back to prospectors in the district.

The gay and festive soda fount now sizzles in the land. And Deacon and good Mrs. Jones Around the counter stand. The lady's gentle nectarine Within the glass is fizzing. The Deacon slyly winks and says, He'll take the same in his'n. Anyone wishing "the same" in theirs, can find it at Loring's.

La Grande Varieties.

The Jones Varieties opened in Phoe-nix on Tuesday last and have met with success. This troupe came to Phoenix with the intention of being one of the permanent institutions of our city and by strictly moral and in-teresting performances, try to merit the public approbation. Last even-ing the performance was excellent and with a fair attendance. The songs of Mesdames Jones, Brewster and Everett, Messrs. Brewster and Love-lace in the first part were well receiv-ed. Brewster in his song and dance is "immense." Mrs. Jones sang sev-eral songs and was the recipient of several encores. She is undoubtedly the favorite with the people here, for both her songs and dances are rarely equaled.

Mr. Loveless with the "bonnet" is an improvement over his predecessor, and in the other charac-ters which he assumes, shows that he has talent of no mean order. In the play of *Pocahontas*, with Loveless as "Powhatan," and Mrs. Jones as "Po-cahontas," as leading characters, sus-tained their parts and were well sup-ported by the other members of the company. Miss Estelle Ashley gave some fine readings and was encored. Although an amateur, this lady de-livers her lines in a manner that would do credit to a professional. The members of the troupe have all improved over their first entertain-ment and should be liberally patron-ized, as we trust they will.

Stage Stopped.

The south-bound stage that left here last evening at nine o'clock was robbed three miles south of town. One man, ably assisted by a rifle, committed the deed. He took the express box and mail sacks, but did not disturb any of the four passengers on board. He cut open the mail at the point of the robbery, from there he was tracked by Sheriff Thomas to the river, a distance of about fifty yards, where all trace of him was lost. Nothing of the box could be found, but a quantity of letters to-gether with five registered packages were found, of the latter one was from Prescott and the remainder from Mineral Park. Four registered pack-ages from Phoenix were taken. A Herald reporter visited the scene of the robbery this morning, and on the trail found a portion of an envelope that proved on investigation, to have contained a letter from Acting Gov-ernor Gosper to Sheriff Gabriel con-taining a requisition for John Taylor who is now confined in the Los An-geles jail. From all appearances we are of the opinion that this robbery was committed by the same person who took in the stage May 5, and at the same place. The regular deliver being confined to bed by an accident the rein were being handled by James Stewart, the efficient superintendent.

The Best is the Cheapest.

The announcement that a new edi-tion of Webster's Unabridged Dictio-nary has just been published, contain-ing many new and valuable features, suggests the thought that buying a Dictionary is a good deal like buying an egg or a watch; a bad one is not cheap at any price. Webster being the standard authority for the English language, he naturally has many im-itators, but imitators are usually held at their true worth by the public, who want a wooden nutmeg, though it may look ever so much like the genuine article. The popularity of Web-ster is based upon this principle.

If you want a handy thing to carry with you, a companion that you can always rely upon, and one that will never tire you, a really *cheap* *un-der* *the* *best* *is* *the* *cheapest*. We recommend that you get a copy of the pocket edition of Webster, with its 18,000 words and meanings, rules for spelling, tables of weight and measures, abbreviations, words, phrases and proverbs from the ancient and modern languages.

It is printed from new type, and bound in morocco, with tucks, and bright gilt edges, and when not other-wise obtainable, will be sent by mail on receipt of one dollar, by the pub-lishers, Ivison, Blakeman, Taylor & Co., 128 & 140 Grand street, New York.

The Lesnisky Railway.

Clifton, Arizona, is the center of an increasing mining business, which may well induce the Southern Pacific Company to run its line as near to it as the country will admit. Last Sat-urday's Silver City Herald says:

The material for the railroad from Clifton to the Longfellow mine will weigh about 325,000 pounds. Henry Lesnisky informs us that it will prob-ably be at the end of the railroad by the 1st of this month, and that the freight to destination is already com-pleted for. Seventy-five men are now at work on the grade, and the force would be increased to 500 could that number be obtained.

Nearly 200,000 pounds of copper from the Longfellow works at Clifton are now stored in Silver City, await-ing shipment to the railroad terminus.

William M. Lent - Mining Excite-ment in New York.

Wm. M. Lent appears to have set-tled down to business in New York having opened a fine suite of offices, for dealing in Bodie stocks. It is un-derstood he is also going into Black Hills mining operations, reports from which continue to show wonderfully profitable results from heavy masses of low-grade but cheaply worked ores.

The *Sua* says the offices of Lent in William street, and Dickinson Bros., Exchange place, headquarters of min-ing speculation, are constantly crowd-ed by people who, but few months ago, would not have touched mining stock. It looks as if the most cau-tious operators had made up their minds that it is safer to deal in solid mining securities than high-priced railroad fancies.

New York, June 21. - The Prince Imperial was ambushed and killed, while sketching a feat by the Zulus. The body when found was stated in 18 places.
